

Docklands Campus.

Situated in a stunning waterfront setting, our Docklands campus provides a modern, well-equipped learning environment. The campus contains a wealth of facilities, including laboratories, studios, workshops, lecture theatre and a multimedia production centre.

In 2012 we opened our sports and leisure complex, SportsDock, bringing world-class sporting facilities to campus.

Our Student Village is located on campus, making us one of the very few London universities to provide on-campus accommodation. We have purpose-built rooms for 1,170 students, as well as a bar, cafés, shops and a launderette.
